

LEFTCOAST

LeftCoast is a five piece Vancouver based original band, drawing influences ranging from jazz to soul to funk and R&B. They believe in versatility and are able to draw from their unique musicality to create a variety of music you won't find anywhere else.

With a lifetime of professional music experience between them, the five members of LeftCoast have seasoned backgrounds in delivering a connoisseur's blend of sonic harmonious magic. Administering a funky mix of

analogue keyboard loops, rich and soulful vocals, bass wizardry, brazen sax licks and fresh drum beats, LeftCoast brings a youthful, yet old school funk image and energy to their songs and subsequently, any live event. This collection of pros channel the grooves of Chaka Khan, Incognito, Joss Stone, Roy Ayers, Bill Withers and the like, as well as giving a healthy nod to the eras of cool jazz and bossa-nova. LeftCoast is set to release their debut album in March 2015.
